Spanish: Native

English: Advanced

PROFILE

Web developer passionate about frontend technologies. I enjoy the creative possibilities that front-end development allows us, as well as the understanding of the artistic and conceptual currents that influence this technological area.

Additionally, I have a vast experience in IT (Linux, networking and security) which adds value in understanding the general structure of a web application.

EXPERIENCE

IBM

QRADAR L2 ENGINEER | 2022 - Present

- Maintain and support the Qradar app framework.
- Bash scripting to automate common tasks.
- I have worked on the development of internal tools to make our day to day easier. In these projects I have been able to develop my knowledge about web development.

SYKES

NETWORK SEC ENGINEER | 2020-2022

- Providing technical assistance in a variety of Cisco security networking solutions by handling a variety of tickets addressing customer's concerns about implementation, design, quotes and making sure they meet an appropriate resolution
